

WEST OF TWIN PEAKS CENTRAL COUNCIL  
P.O. Box 27112, San Francisco, CA 94127

April 2, 2007

Mr. Richard Macias  
Capital Planning and Design and Construction  
San Francisco State University  
1600 Holloway Avenue  
San Francisco, California 94132

**RE: San Francisco State University Campus Master Plan**  
Draft Environmental Report

Dear Mr. Macias:

The West of Twin Peaks Central Council is an umbrella organization representing sixteen Westside neighborhood groups. Our organization has major concerns at the inadequacy of the Draft Environmental Report to examine the impacts of increased student housing and development on transportation and infrastructure in our neighborhoods. Additionally, the woefully inadequate discuss of traffic and parking and possible mitigation.

Whereby our organization is currently reviewing major development plans located on Brotherhood Way, 19<sup>th</sup> Avenue, the Christian Science lots, Summerhill Homes, Park Merced, City College expansion plans, and numerous others, we are obviously concerned for impacts on the neighborhood character. There is no discussion in your plan of any mitigation and future cumulative impacts to our area for transit, housing, environment and services.

Please refer to the letters on file from Supervisor Sean Elsbernd, the City Planning Department and the San Francisco Public Utilities Commission, as well as Assemblywoman Fiona Ma for specifics.

Sincerely,

Denise LaPointe  
President

Cc: The Honorable Sean Elsbernd
